

WHERE WILL YOU CHOOSE TO PRACTICE?

PATHWAY TO EXCELLENCE® IS ABOUT SUPPORTING YOU, AS A NURSE, THROUGHOUT YOUR CAREER.

Pathway to Excellence® is an investment in the optimum workplace for nurses, where organizations demonstrate a culture of sustained excellence, which results in the successful recruitment of top candidates and staff retention through high job satisfaction.

Pathway ensures that leaders, both at the organization and unit levels, foster a positive practice environment. Pathway promotes shared decision-making and nurses' participation in improving quality and safety.

Working in a Pathway organization means that your professional development and well-being are valued. A dedicated standard that focuses on safeguarding clinician well-being means that Pathway nurses enjoy greater work-life effectiveness, more collegial relationships and are recognized for their work.

Pathway Standards promote practice environments where nurses have a voice, work collaboratively, and everyone's contributions are valued.

Work Better, Together

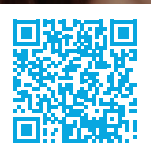

Pathway enhances staff engagement and unit effectiveness, which leads to better patient experiences, satisfaction, safety, and outcomes.

Work With Leadership

The Pathway program assures leadership's support for nurses, enabling them to lead at the bedside and achieve professional success.
